

Parking lot USB exercise

Contents	<p>Write 2-3 sentences about the types of information found on this device.</p> <ul style="list-style-type: none">• <i>Work files, including resumes, and HR related files</i>• <i>There's also some personal files there as well</i>
Attacker mindset	<p>Write 2-3 sentences about how this information could be used against Jorge or the hospital.</p> <ul style="list-style-type: none">• <i>Assuming this is either a legitimate USB stick belonging to Jorge, or simply data with malicious coding on it (with what seems to appear as "valid/legitimate" files).</i>• <i>Someone or Jorge himself may plug it into his PC, thus infecting one or multiple computers, while also creating a backdoor. This would provide an entry point in the company, where files could either be copied and/or deleted.</i>
Risk analysis	<p>Write 3 or 4 sentences describing technical, operational, or managerial controls that could mitigate these types of attacks:</p> <ul style="list-style-type: none">• <i>Any type of virus could have been included on the USB drive. Perhaps a Lumma stealer or another form of virus that would either steal information and/or register keystrokes.</i>
